

NC-DPO-W

Conventional optical smoke detector (White)

General

The NC-DPO-W is a photoelectric (optical) detector suitable for use in hotels, restaurants, office buildings, schools, banks, warehouses, libraries, computer rooms, switch rooms, etc.

Application

The detector supports installation on the NC-DB-W conventional detector base for standard applications, or the NC-DBD-W diode base when head-out functionality to BS5839 standard is required. Detection sensitivities are programmable using the NC-D-PT device programmer.

Details

- Supports drift compensation to enable good environmental adaptability
- Self-diagnostic
- Local test activation with reed switch
- Chamber contamination checking
- All round LED visibility (360° viewing angle) avoids time spent on specific detector orientation
- Configurable polling LED support
- Remote indicator output
- Removable sensing chamber for for easy maintenance
- 2 Programmable smoke sensitivity levels

NC-DPO-W

Conventional optical smoke detector (White)

Technical specifications

General

Status indication	Red LED
User interface	Via LED - polling, fault, contamination and alarm
Compatibility	NC-Series conventional panels and Excellence series conventional zone monitors
Reset voltage	<1 VDC
Reset time	<10 s
Alarm levels	2
Connectivity	Zone connection - 2-core (polarity sensitive), RI connection - 2-core (polarity sensitive)

Electrical

Operating voltage	9.5 to 28 VDC (24 VDC typical)
Current consumption	<60 μ A (Quiescent) \leq 55 mA (Alarm)
Cable specification	>1.0 mm ²
No. of cable cores	2
Terminals	4

Detection

Detection principle	Optical, tyndall effect
Sensitivity	Programmable
Zone length	Panel dependent

Output

Output quantity	1
Output type and rating	Remote indicator
Remote alarm output	Supported

Physical

Physical dimensions	54.5 mm (including base) x 100 mm \varnothing
Net weight	\pm 110 g
Colour	Traffic white (RAL9016)
Mounting type	Ceiling mount
Material (body)	ABS

Environmental

Vandal proof	No
Operating temperature	-10 to +50°C
Relative humidity	0 to 95% noncondensing
Environment	Indoor
IP rating	IP2x
Application temperature (maximum)	-10 to +50°C (Class A1/A2)
Application temperature (maximum)	-10 to +65°C (Class B)

Regulatory

Compliance	CE, REACH, RoHS 3, WEEE
Certification	CPR
Voluntary marks	BOSEC
Standards	EN54-7

Compatible products

Category	Reference	Description
Detection device	NC-D-PT	Conventional hand held device programmer
Detection device	NC-DB-W	Conventional standard point detector base (White)
Detection device	NC-DB2R-W	Conventional dual relay base (White)
Detection device	NC-DBD-W	Conventional standard point detector base with diode (White)
Detection device	NC-DBR-W	Conventional relay base (White)
Notification device	PA25/3L	Conventional remote indicator
